## PINK PACK® MULTI-VITAMIN

### Vitamins, minerals, antioxidants, carotenoids and more

#### Try this ultimate, high-potency multi-vitamin formula for women

This premium quality, high-potency multi-vitamin/mineral formula fulfills a woman's specific needs. It was created by author and nutrition consultant, Judy Lindberg McFarland, who has been on the cutting edge of developing effective supplements for over 40 years.

#### Made with natural beta-carotene

We include only the more expensive, natural form of beta-carotene, an important source of vitamin A. Natural beta-carotene contains a wide spectrum of carotenoids, including alpha-carotene, cryptoxanthin, zeaxanthin and lutein.

These yellow, orange and red carotenoids may help quench free radicals and support health.\*

#### Loaded with bone health ingredients including superior calcium citrate

To support bone health, you get 1,000 mg of calcium from three sources, including 500 mg of calcium citrate. Plus, you get the full 100% RDI (400 mg) of magnesium.

Calcium and magnesium are lacking in adequate potencies in just about every multiple on the market. The reason? They alone occupy almost 4 capsules. For optimum health, you need more than just a token amount of calcium and magnesium.

#### Vitamin D3 for enhanced bone health

Vitamin D enhances the absorption of calcium and is essential for bone health. Since women are more prone to bone health issues, 1,000 IU of vitamin D3, which is superior to D2, is added.\*

#### Vitamin C supports collagen

The building block of healthy skin is collagen, which requires healthy amounts of vitamin C. We include buffered, non-acidic C for sensitive stomachs.\*

#### Bioflavonoids support vein health

To support vein and capillary health, citrus bioflavonoids are included. Bioflavonoids also enhance vitamin C absorption.\*

#### Natural vitamin E plus gamma-tocopherols

Only the natural d-alpha form of vitamin E is used. We also include a gamma-tocopherol complex, which works with vitamin E to combat oxidative stress.

#### Hair, nail and skin ingredients

How you look on the outside is a reflection of your internal nutritional status. That's why we include the trace minerals silica and MSM (sulfur), which are important for beautiful hair, nails and skin.\*

#### Protective antioxidants—alpha-lipoic acid and grape seed extract

Alpha-lipoic acid provides antioxidant protection inside the cell and extends the life of vitamins C and E. Grape seed extract is an antioxidant that benefits the cardiovascular system.\*

#### With lutein for healthy eyes

You get lutein, a natural antioxidant carotenoid found in high concentrations in the macula to support eye health.\*

#### Lycopene supports overall health

This red carotenoid may support overall health including breast health.\*

#### Cranberry for urinary tract support

Concentrated fruit constituents found in cranberry are provided, which support a healthy urinary tract.\*

#### Iron-free

This updated formula is iron-free. Many of our customers prefer to take iron separately, if at all.

#### All capsules – fast delivery

An advanced, vegetarian capsule formula delivers ingredients quicker into the body.

#### Who should take Pink Pack?

Pink Pack is ideal for busy women who want vibrant health and who have concerns about aging and bone health.\* It's also great for growing teenage girls. You get exactly what you need in each individual packet. Order today!
